

Brazilian Mining Code
Código de Mineração

Publisher: **Jurídica Editora**

Year published: **2008**

“This is an important initiative by the authors and editors of this brochure, who saw the need to make the set of legal rules in effect in Brazil to the international mining community (investors, professional business consultants, government representatives, researchers, etc.), thereby making the regulatory aspects of mining accessible to those who are familiar with the English language.”

Miguel Antônio Cedraz Nery

DNPM General Director
